Self Awareness

Self-awareness is understanding yourself, your thoughts, feelings, and actions. It's like looking in a mirror and seeing yourself clearly, knowing what you're good at, what you need to work on, and how you affect others. It's a bit like being your own detective, noticing and understanding what makes you, you.

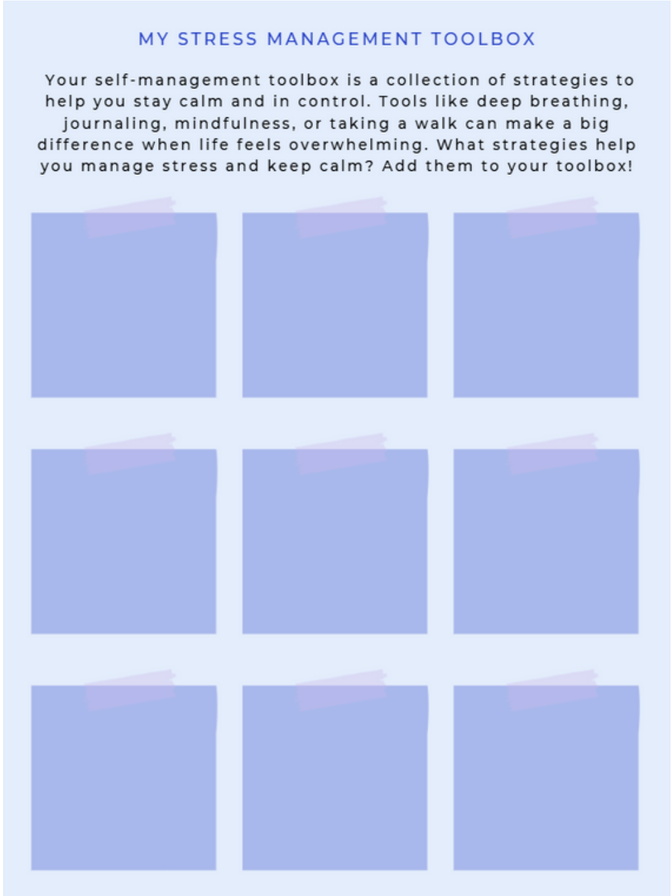
SIGNS I'M FEELING STRESSED

Stress can show up in our minds, bodies, and behaviours in ways we might not always notice. When you're feeling stressed, you might experience physical signs like headaches, muscle tension, or an upset stomach. Mentally, you could feel overwhelmed, forgetful, or easily irritated. Behaviourally, you might notice changes like difficulty sleeping, withdrawing from others, or losing interest in activities you usually enjoy.

Take a moment to reflect: What signs show up for you when you're feeling stressed? Recognising these signs is the first step to managing stress effectively.

Update your BVM journal on these pages to help understand your stress signs and to create your toolkit



MY STRESS MANAGEMENT TOOLBOX

Your self-management toolbox is a collection of strategies to help you stay calm and in control. Tools like deep breathing, journaling, mindfulness, or taking a walk can make a big difference when life feels overwhelming. What strategies help you manage stress and keep calm? Add them to your toolbox!

Self Management: Stress Management

LEARNING:

It is really important to

- know your stress toolbox and use it!
- identify what works for you
- understand sometimes we might need to do more than one thing
- seek help when you need it

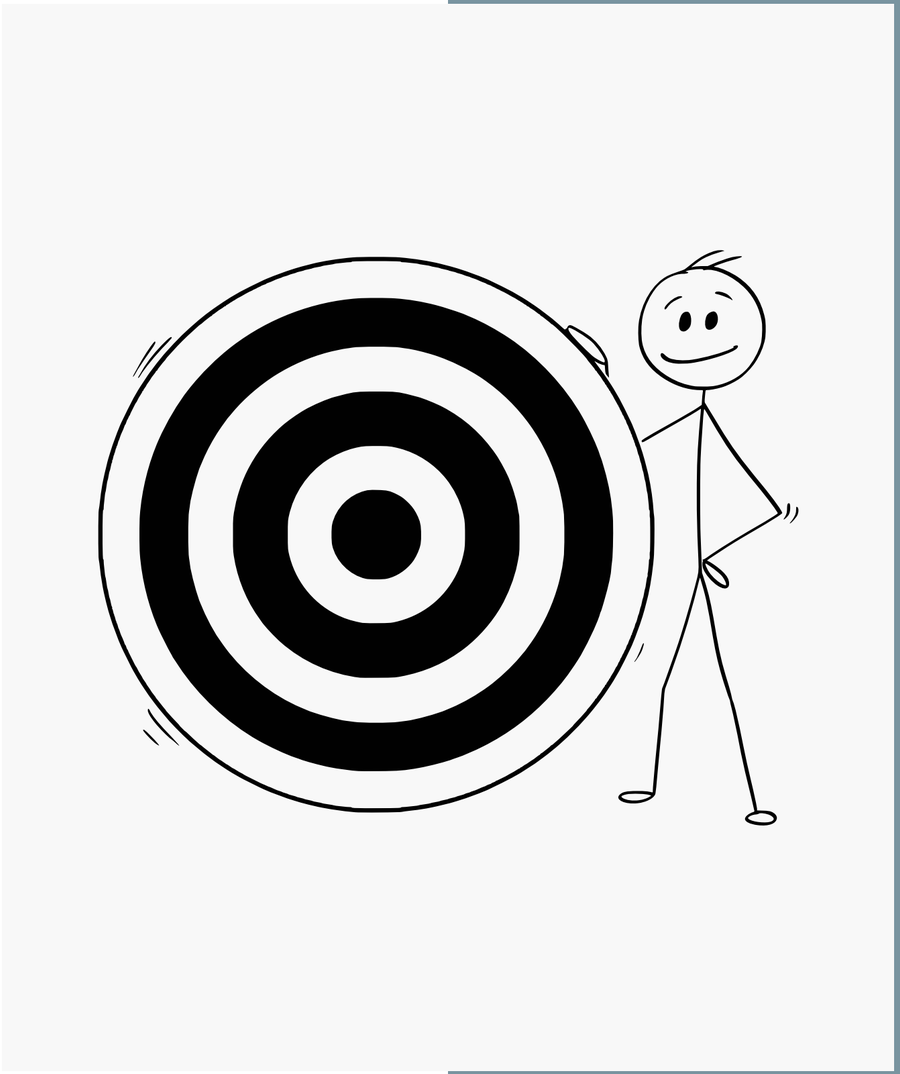
Why Do Goals Matter?

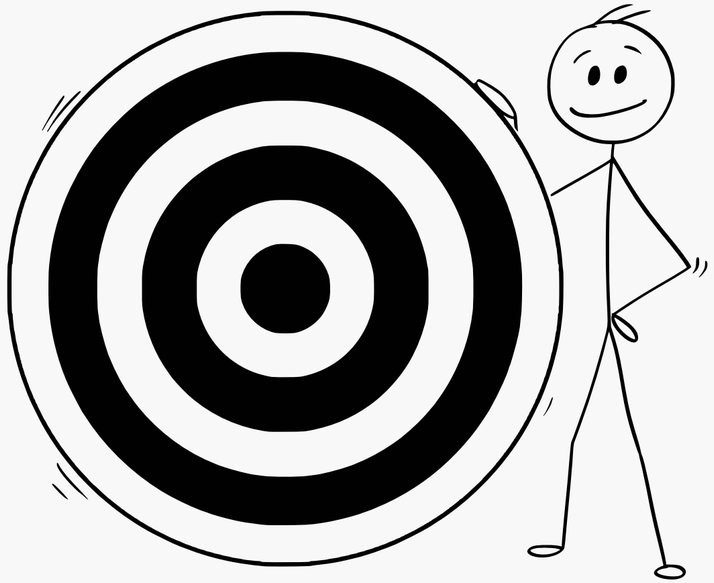
- They help us lead with purpose
- When things get tricky, your goals remind you why you started.
- They help us grow into the leader we want to be
- They turn big ideas into real action



Self Management: ***Goal Setting***

A good goal is

- **Clear -** you know what the aim is
- **Measurable -** you can tell when you've achieved it
- **Challenging but possible**
- **Timed -** you have a finish date



Self Management: ***Goal Setting Examples***

1. SMART Goal Template

Helps you create a clear and structured goal by making it: Specific, Measurable, Achievable, Relevant, and Time-bound.

2. Goal Breakdown Template

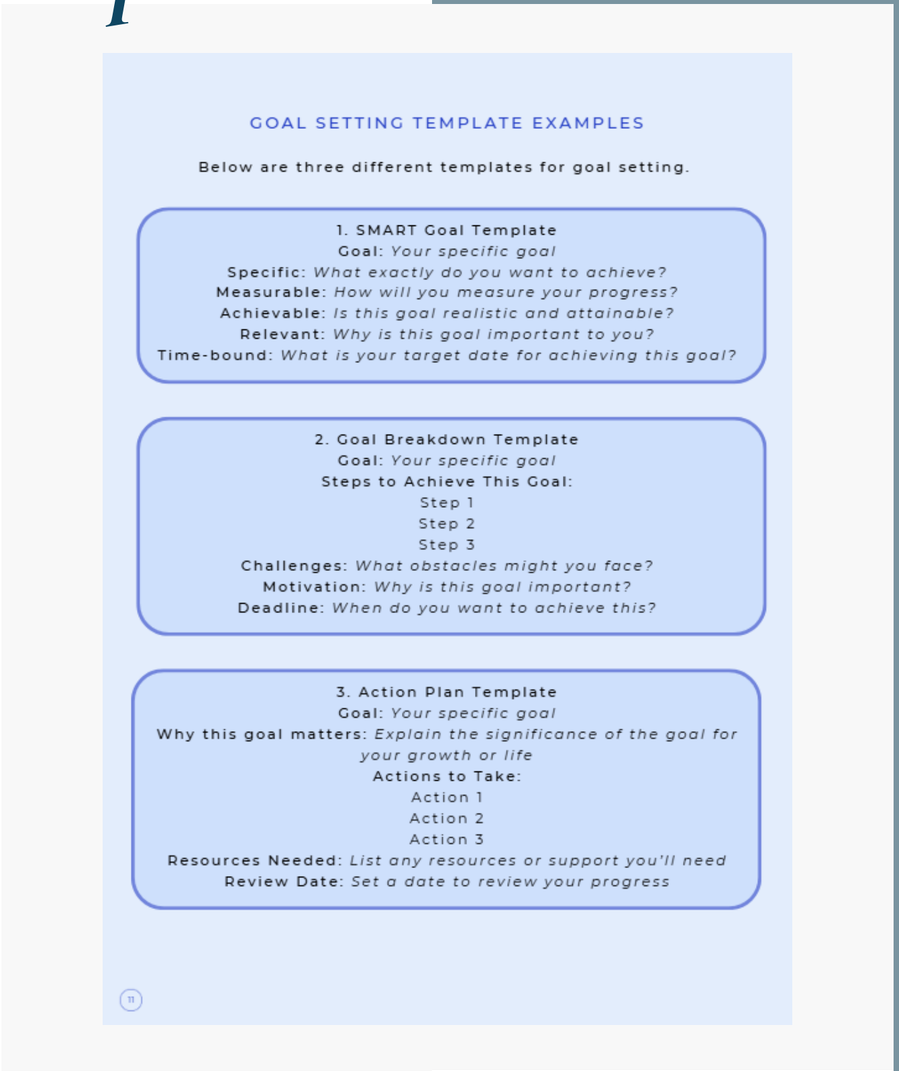
3. Action Plan Template

Focuses on why the goal matters, the actions you'll take, the resources you need, and when you'll check your progress.



GOAL SETTING TEMPLATE EXAMPLES

Below are three different templates for goal setting.

1. SMART Goal Template
Goal: *Your specific goal*

LEADERSHIP REFLECTIONS

Leadership is a journey, not a destination. As you reflect on your own leadership, it's important to identify the qualities that resonate with you, as well as areas where you'd like to grow. This section encourages you to think deeply about the type of leader you aspire to be, the qualities you admire in others, and the skills you are actively developing.

Think about a leader you look up to - whether in your personal life, in sports, or in history. **List the person in the middle below and 4 x qualities that stand out to you.**
